

Productname: camRade wetSuit GY-LS300

SKU: CAM-WS- GYLS300 **EAN/UCC:** 8718591671210

Resistant against:

Description

The camRade wetSuit GY-LS300 is a tailor-made rain cover that protects your camera against the elements. Made of a special fabric with a soft lining this flexible cover is specifically designed for the JVC GY-LS300.

The soft lining minimalizes unwanted sound effects caused by wind and rain. The cover also reduces the chance of the camera overheating by allowing hot air to escape via several openings.

The monitor on the side is protected by a vinyl window that can be opened for maximum visibility and access. Two transparent lens covers are included in the package and allow you to view the lens setting during operation. The bottom of the cover can be opened and closed with a double zipper.

This item is supplied in a waterproof pouch with zipper, which you can use for storage and transportation of the cover when not in active use.
