Resistant against:

Description

The camRade wetSuit GV EFP Large - Black is a very strong rain cover designed to withstand the elements for use on a wide range of Grass Valley outside broadcasting cameras with Box Lens.

The flexible black fabric with soft lining minimalizes unwanted sound effects caused by wind and rain during operation.

The cover is perfect for use during music and sports events, both indoor and outdoor.

The monitor and controls are protected by vinyl windows for easy visibility and the hand controls are fully accessible. The one-piece wetsuit closes around the lens, the hand controls and the viewfinder with elastic straps for a good seal with the camera.

This item is supplied in a waterproof pouch with zipper, which you can use for storage and transportation of the cover when not in active use.

Key features

- Form-fitted for outside broadcasting cameras from Grass Valley; LDX 80, LDX 82, LDX 86 and LDX 86N in combination with SuperXpander and Box lens
